PROFESSIONAL PLUS STANDARD

Rotary hammer drill bits with 4 cutting edges **ROCKET 5**

Highest precision

- 5 crushers allow drilling of precise holes
- Low vibration while working

Perfect suitable for reinforcements

- Protection against reinforcement prevents jamming
- Wear marks for the proof of dowel-compatible holes

Extremely durable

- 4-flute geometry increases lifetime
- Evenly spread wear

Characteristics

Durable

Precise

Powerful

Low vibration

Shank

- Available in SDS-plus and SDS-max

Twist drill bit sets DIN 338

SPEEDPOWER

Combines the precision of a ground drill bit with the increased breaking resistance of a roll-forged drill bit

- ▶ Made of high-alloy high-speed steel (DM05) for a particularly long service life
- ▶ With 118° tapered finish for multiple and easy regrinding
- ▶ Precision roll-forged for increased breaking resistance and precisely round drill holes
- ▶ For drilling steel up to 1.000 N/mm², cast steel, gray cast iron, sintered iron, non-ferrous metals and graphite

Standard twist drill bit

SPEEDPOWER twist drill bit

Reduced drill core tip/
crosscutting edge

Easy initial drilling with less feed

Power saving

Faster drilling progress with less heat development

Longer life time

Reinforced drill core

Increases the breaking resistance of the twist drill bits
